

## How to Remove Treasury Net<sup>SM</sup> Check Positive Pay Alerts

**Important Note:** Your Treasury Net Positive Pay Alerts will not be migrated or disabled once your company is migrated to City National Business Suite<sup>SM</sup>. Therefore, it is essential to set up new alerts on Business Suite and to remove Treasury Net Positive Pay alerts before your go-live date on Business Suite. We recommend that you remove your alerts on the last business day transacting in Treasury Net, after your check exceptions are loaded for that day. If you set up Business Suite Positive Pay alerts and forget to remove your Treasury Net Positive Pay alerts, you may get duplicate email alerts. These instructions apply only to Positive Pay alerts. For other Treasury Net alerts, they will not migrate and will also need to be reestablished on Business Suite; however, they do not need to be deleted as the Check Positive Pay Alerts do.

1. Go to Positive Pay Alerts module at <https://apps.cnb.com/tnetalerts/>
2. Enter your Treasury Net credentials and click on **Login**.

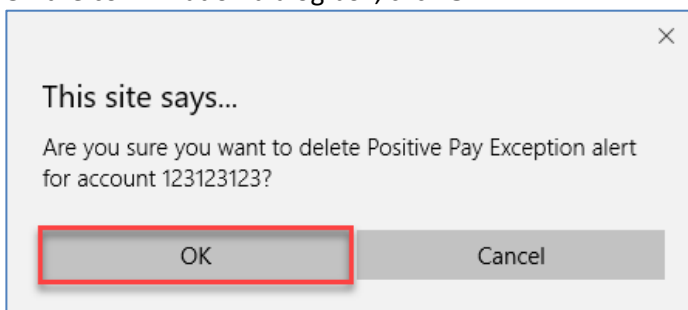

3. Click on **View/Edit Alerts**.

4. From the list of available accounts, identify the account associated with the alert you wish to delete.
5. Click **Delete**

6. On the confirmation dialog box, click **OK**.

7. Repeat Steps 3 to 6 until you have removed all your Positive Pay alerts.
