Account Services Overview

This User Guide describes City National Business Suite® Account Services, including reporting, viewing images of statements, retrieving images of deposited items and other features allowing you to track your banking activity.

The Account Reporting features provides sophisticated and easy-to-use information reporting tools to view your account balances, create and manage account groups, access statements, view standard or customized reports, and other helpful tools to give you full visibility of your bank accounts.

Key Features

Balances and Activity – Lists the balances of the accounts that you have permission to see, including opening ledger, current ledger, opening available and current available balances. You can also create and manage account groups, access transaction details and view custom reports from the widget.

Statements – Search for specific account statements for up to seven years (in 180-day increments) based on statement type and date. In addition, you can filter existing statements according to account details.

Checks and Stops Inquiry – The Checks and Stops Inquiry function allows you to retrieve information about paid checks or stop payments to help confirm the item status.

Stop Pay Requests – Create and submit stop payments on individual or multiple checks or a range of checks for six months, two years or as a permanent stop. You can also cancel any active stop payments.

Deposit Images – Search for deposit images on your bank accounts, including deposit tickets and associated items.

Wire Activity – Provides information about incoming and outgoing wires that have posted to your bank accounts. You can export or print the activity details to your computer.

Exports – Download balance and transaction data in multiple formats, including BAI, CSV, Quicken or QuickBooks (OFX) formats.

Reports – The Reports feature shows a list of all reports you have access to for gathering information about your bank accounts for both current and prior days' activity. The reports can be downloaded for off-line review.

Balances and Activity

The Balances and Activity widget includes a wide array of information-reporting tools for the accounts that you have permission to see. You can access balances and activity, organize account groups, save custom reports and complete general transaction searches across accounts through this widget.

To view the Balances and Activity widget:

1. Select **Balances and Activity** from the Accounts menu.

The default display is the Accounts tab showing account balances.

Viewing 1-3 of 122 records Display 3 per page Page 1 of 41

The Accounts tab screen lists two types of accounts:

Deposit Accounts: Lists all available deposit accounts and the opening ledger and current available balances. The screen shows the date when balances were last updated.

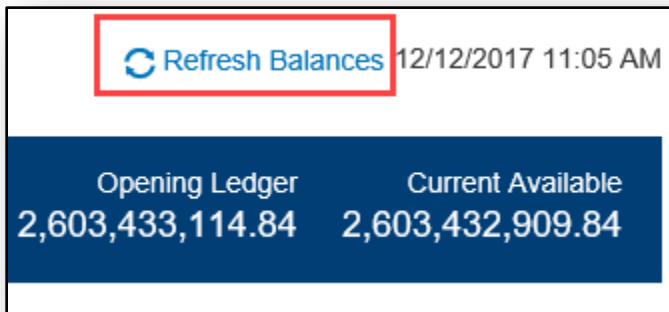

Note: The totals shown in the header section reflect the items appearing on the current page

Loan Accounts: All accounts listed by account number.

- To see transaction details for an individual account, click the **View** link in the **Accounts** column that corresponds to the account you wish to view.

Updating Balances

You can update balances by clicking the **Refresh Balances** icon and link at the top of the Balances and Activity Accounts Reporting Account Summary widget.

Exporting Balance and Transaction Data

You can export either summary and balance information or transaction information.

Exported data may include any of the following formats:

- Comma separated basic
- Comma separated value (CSV)
- Tab separated value (TSV)
- BAI
- QuickBooks (OFX)
- Quicken OFX

To export information:

- Click **Export**.
- If necessary, select the appropriate export options, and then click **Export**.
- Save the file to the desired location. Specific steps vary by browser.

Viewing Transaction Details

The Transaction Details screen is accessed by clicking the account number in the **Account Number** column that corresponds to the account you wish to view from the

Balances and Activity Widget. This screen displays detailed account information. If transaction details are too long to fit in the columns displayed on the screen, you can view the entire details by hovering over the displayed detail with the mouse.

Switching to Other Accounts in Transaction Details

After viewing the transaction details for one account, you can switch to another account to view details.

1. From the **View Another Account** option on the right side of the screen, click the dropdown arrow to view and select from the other available accounts as shown below. Type ahead (smart search) feature will present matching accounts as you type.
2. The detail information will be refreshed with the newly selected account without the need to return to the prior page or summary view.

CHECKS PAID	0	0.00	3	0.45
MONEY TRANSFER	28	8.48	51	5.43
OTHER DEPOSITS	1	0.45	0	0.00
All Transactions	29	8.93	54	5.88

Filtering Transactions

To filter transactions:

1. Click the **Filters** drop-down at the upper left side of the screen.
2. Select the appropriate filter.
3. The list will be filtered by the criteria you selected.

When you apply one or more filters in a List View, or sort a column on that view, or define the number of records to display at one time, the filtered version of the grid will be maintained throughout your user session.

Viewing Transaction Images

Some transactions have images associated with them, such as images of deposit slips or cleared checks.

To view images, an account must be set up by the administrator to permit image viewing.

To view a transaction image:

1. Slide the horizontal navigation bar to the left until you see the **Image** column. If the transaction has an associated image, an image icon will be displayed.
2. Click the icon to view the image.
3. Controls below the image allow you to flip or rotate it, as well as zoom in or out.
4. To save the image to a file, click the **save icon**.
5. To print the image, click the **print icon**.

Account Groups

The account groups feature allows you to logically organize bank accounts into groups. When you are viewing bank account data on a list or report, you can choose to filter the data by these groups. This feature allows you to view data for related accounts quickly and easily.

Adding Account Groups

To add an account group:

1. Select **Balances and Activity** from the Accounts menu.
2. When the page displays, click the **Groups** tab.

Balances and Activity

Accounts **Groups** Reporting Transaction Search

Want to Create Account Groups?

Account Groups allow you to view your accounts and accounts' balances in defined groups.

To create account groups and assign accounts to those groups, simply select the Create Account Groups button below.

Create Account Groups

3. Click **Create Account Groups** or **Edit** next to **Deposit Account Groups**. This will display the Manage Account Groups screen.
4. Above the Account Groups pane, click **Add Group**.
5. In the **New Group** box, enter the name of the group you want to add.
6. Select the group name from the **Select Group** list at the bottom of the screen.
7. In the left pane, check the accounts that you want to include in the group. Click the **Deposit Accounts** indicator to show deposit accounts or **Loan Accounts** to show loan accounts.
8. Click **Move Selected Accounts**. (You may also drag and drop accounts from the left column into the desired **Account Group** on the right.)
9. The accounts will appear in the right pane. The accounts appear in the same order as they will be shown on the **Balance and Transaction Reporting** screens.
10. When the account group appears as desired, click **Save**.

Modifying or Deleting Account Groups

To modify or delete an account group:

1. Select **Balances and Activity** from the Accounts menu.
2. When the page displays, click the **Groups** tab.
3. To modify a group, click **Edit** in the upper left (above the first account group shown). This will display the Manage Account Groups screen.

4. Select **Deposit Accounts** or **Loan Accounts** to display those account groups, and select the group name from the list.
5. Add or remove accounts as needed.
6. You can delete the account group by clicking the **X** icon.
7. You can edit the group name by clicking the **Edit** icon.
8. When you have finished, click **Save**.

Custom Reporting

The Custom Reporting feature allows you to create and save custom reports on accounts or account group information.

Note: Custom reports created by one user can be shared with other users. If the user who created the custom report is no longer a user of your Business Suite, his or her custom reports will continue to be available to the remaining users.

To use Custom Reporting:

1. Select **Balances and Activity** from the Accounts menu.
2. When the page displays, click the **Reporting** tab.

2. In the **Date Range** field, select a range or enter a custom range using the calendar icon.
3. (optional) Use the **Account Transactions View** drop-down to select how you want to view accounts: Credit/Debit Single View or Separate Credit and Debit Views.
4. (optional) Click the right arrow button in the **Transaction Filters** field to expand the list of options.
5. (optional) Enter a bank code as a search criterion.
6. (optional) Enter a currency as a search criterion.
5. (optional) Use the **Debit/Credit** drop-down to select whether the search should filter for debit or credit transactions.
6. (optional) Enter a transaction type as a search criterion.
7. (optional) Enter a BAI transaction code as a search criterion.

8. (optional) Use the **Status** drop-down to select an appropriate status: Pending or Cleared.
9. (optional) In the **Transaction Amount** field, use the drop-down to select an appropriate qualifier (for example, **is equal to**), and then in the right-hand text field, enter an amount.
10. (optional) Enter a bank reference as a search criterion.
11. (optional) Enter a customer reference as a search criterion.
12. If you want to save this report for future viewing, click **Save this report**, and then enter a name for the new report.
13. When you have finished selecting search criteria, click **Submit**. The results appear as a custom report. Click **Edit** in the **Report Criteria** section to edit the criteria and create a new report based on them.

Transaction Search

The Transaction Search feature allows you to search across the accounts you have access to for specific transactions.

To search for a transaction:

1. Select **Balance and Transaction Reporting** from the Accounts menu.
2. When the page displays, click the **Transaction Search** tab.

The screenshot shows the 'Balances and Activity' section of the City National Bank portal. The 'Transaction Search' tab is selected. Below the tabs, there is a section titled 'Enter New Report Criteria'. This section includes two sub-tabs: 'Deposit Accounts' (selected) and 'Loan Accounts'. Under 'Deposit Accounts', there is a dropdown menu labeled 'Accounts' with 'Deposit Accounts - CNB USD *' selected. Below this is a 'Date Range' field with a red asterisk indicating it is required. At the bottom of the criteria section is a 'Transaction Filters' section with a dropdown arrow. At the very bottom of the form are three buttons: 'Submit', 'Clear', and 'Cancel'.

3. To search for deposit accounts, click **Deposit Accounts**, or to search for loan accounts, click **Loan Accounts**.
4. (optional) In the **Accounts/Account Group** field, use the drop-down to select whether you want to search for accounts or account groups. You can search for all accounts or account groups, or click in the right-hand field to see a list of accounts/account groups that you can select from.
5. In the **Date Range** field, select a range or enter a custom range using the calendar icon.

Exports

The Exports function allows you to download balance and transaction data in Bank Administration Institute (BAI), CSV, TSV, CS Basic Export (a basic comma-separated format) or Quicken/QuickBooks (OFX) format. In order to do so, you must have permission to download data in the appropriate format.

Bank account and transaction information can also be downloaded in CSV format from the Bank Account Summary screen or transaction list view with the export function.

There are two steps to downloading balance and transaction data:

- First, you need to submit an export request.
- After the system processes the request, you can download the exported data from the Downloads screen. Note that the entry of different fields is required for each of the different export types. These differences are detailed in the instructions that follow.

Note: BAI files contain historical balance values. Such values cannot be stored for accounts enabled for Real Time – Posted Transactions. Therefore, these accounts will not be available for BAI export.

Submit an Export Request

1. From the Accounts menu, select **Exports**.
2. The system displays the Download screen.
3. Click **Create New Export**.

Export Data

Export Type

CSV

File Name

Transaction File

Output Content

Balances and Transactions

☐ Exclude Header

Continue

Cancel

4. From the **Export Type** drop-down, select the type of file you want to export.
 - BAI
 - CS Basic
 - CSV
 - TSV
 - QuickBooks (OFX)
 - Quicken (OFX)
5. Enter a file name for the exported file.
6. If you selected CSV as the export type, select the content you want to export from the **Output Content** drop-down. You can choose **Transactions Only**, **Balances Only** or **Balances and Transactions**.
7. You can also check the **Exclude Header** box if you want to exclude the header from the exported file.
8. If you selected BAI as the export type, from the **BAI Data Export** list, select **Prior Day** or **Current Day**.
9. Click **Continue**.
10. The application displays additional fields to complete.
11. Complete the necessary fields to specify additional criteria for the data you want to export.

Note: The default setting for the **Accounts** and **Account Groups** fields is *blank* (optional). Leaving these fields blank results in all available accounts being selected for export.

12. Click **Create Export**.
13. The export request is listed on the Downloads screen.

The **Status** column lists the progress of the request. The status will change to **Complete** once the export has finished.

If the file was created successfully, the **Message** column will reflect this fact.

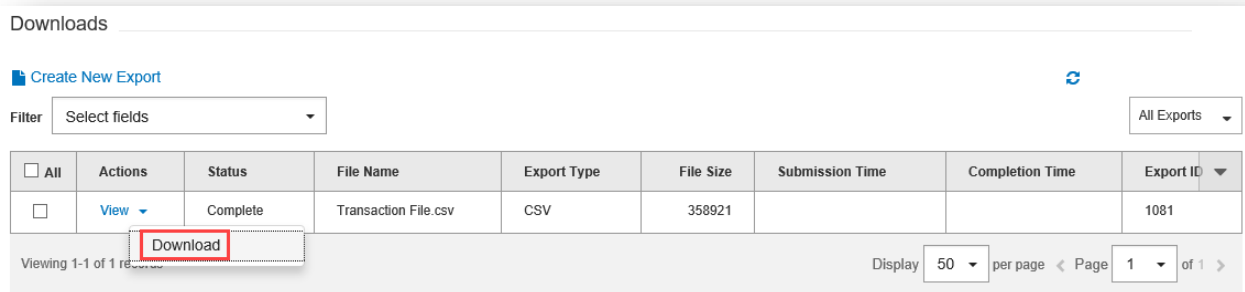

Note: As stated above, once the download is complete, the **Status** column will read *Complete*. However, if the export was not successful, you see one of the following:

- If the system could not create a file because there is no data, the **Message** column will read *No data available for specified criteria. No file created.*
- If there was an error during the download process, the **Message** column will read *Error occurred. No file created.*
- **For QuickBooks and Quicken output:** There is a threshold for the number of transaction records that can be successfully exported. If this threshold is

exceeded, the **Message** column will read, *The number of transactions to be exported exceeds the maximum threshold of 10,000. No file created.*

Downloading an Exported File

- On the Downloads screen, select the appropriate item in the list, and click **Download** from the **Actions** column.
You can also select **View** from the **Actions** column to see details of the export. To download from the Details screen, click **Download**.

- Follow your browser instructions to open or save the file.

Reports

The Reports function shows a list of all reports you have access to. Reports are organized by report groups.

View a Report

To view a report:

- Select **Reports** from the Accounts menu.
The system displays the Reports screen.

Display per page < Page of 1 >

Select **View** in the **Actions** column for the report you would like to view.

The system displays the report you selected.

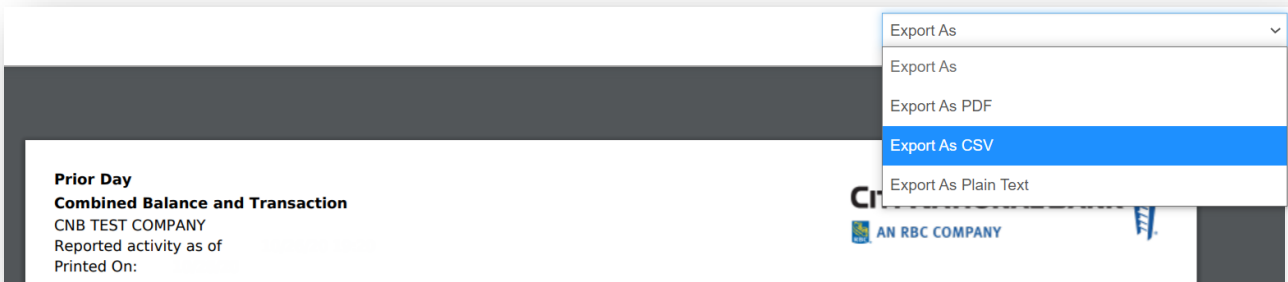

NOTES:

- The **View** option for some reports will display Report Criteria where you can filter the data you would like to view in the report. Set the report criteria by expanding a section and entering or selecting the appropriate data. You can save the report criteria by checking the **Save this Report** box.
- When you are ready to view the report, click **Run Report**.

Download a Report

All reports are downloadable to your computer for offline viewing or archival purposes.

Reports may be exported in the following formats, by clicking on the desired file type option from the **Export As** dropdown list:

- **Adobe PDF** – Use this file type for static, visually appealing reports with data that cannot be manipulated or integrated.
- **Comma separated values** – CSV files can be reviewed and analyzed with MS Excel and other programs. In addition, CSV can be used to keep your accounting program up to date with the latest bank data reflecting your activities.
- **Plain Text** – Like CSV, text files contain your data and can be downloaded into other programs for analysis or accounting purposes.

In addition to the above, you may download the report as a PDF as follows:

1. After creating the report as described above, click the Download icon at the upper right side of the page.

2. Browse to the location on your computer where you wish to keep the report information and **Save**.

Parallel Processing Allows Print and Export Jobs to Complete in Background

Parallel processing of reports and exports allows large report jobs or export requests that may take more than a minute to generate to be completed in the background while you continue working in the system.

On-screen notification of processing time – If a report or export job will require more than a minute to process, you will receive a notification that the report could take a few minutes; click the link to close the message and then continue working while the task completes.

On-screen notification that report is ready – When the background processing is completed, you will receive a pop-up message that the report is ready with the option to Download now or Dismiss and download later from the Exports module.

Exports module will carry the report for up to 7 days – Export a print job in PDF or export a file or print job in other available formats.

Statements

The Statements feature lets you search for your account statements based on statement type and date. You can also filter existing statements according to account details.

To search for and download statements:

1. Select **Statements** from the Accounts menu.

The system displays the Statements screen.

Statements

* **Statement Type**

Deposit Account Statements

* **Date Range**

04/29/2020 - 10/26/2020

* **ACCOUNTS**

Search

2. Deposit Account Statements will populate in the **Statement Type** field. Currently, these are the only statements available to view within the Statements feature.
3. Select the desired range of dates: Last 7 Days, Last 14 Days, Last 30 Days, Last 90 Days, Month to Date, Quarter to Date, Year to Date, Today. You can also select **Custom Range**. Use the pop-up calendars to select the range of dates, then click **Apply**. (Statements are available for up to seven years and are viewable in increments of 180 days.)
4. Click in the Accounts field to select the account(s) you would like to search. Otherwise, blank will default to **All** accounts. Click **Search**. The search results appear at the bottom of the screen.

Cancel

3. Enter check detail information. Use the drop-down to select the **Account Number**.
4. After selecting the Account, the **Account Name** should populate.
5. Enter the serial number of the check you want to stop payment on.

6. Enter the amount of the check.
7. (optional) Use the calendar icon to select an **Issue Date**.
8. (optional) If necessary, enter a **Payee Name**.
9. Use the **Reason** drop-down to select a reason for the stop — for example, **Insufficient Funds**.
10. Use the **Stop Duration** drop-down to select a period of time during which the stop will be in effect.
11. (optional) Enter a **Memo** if necessary.
12. Click **Save**.

Notes:

- You can stop a range of checks by entering a beginning check number in the **Serial Number** field and an ending check number in the **To field** (which becomes active after a number has been entered into the **Serial Number** field). When a check range is entered, the **Amount**, **Check Issue Date** and **Payee Name** fields will be unavailable for modification.
- Stop payment(s) may require additional approval by your company approver.

Cancel Stop Payments

To cancel a stop payment or range of stop payments:

1. Select **Stop Pay Requests** from the Accounts menu.
2. On the Stop Payments screen, click **View** in the **Actions** column for the item you want to cancel stop payment on. You can also select **Cancel Stop** from the drop-down menu. The item must have a **Bank Confirmed** status in order to be able to cancel the stop payment.
3. The system displays the **Stop Payment Request** screen.
4. Click **Cancel Stop**.
5. The system displays the **Cancel Stop Payment Request** screen.
6. Confirm that the correct information is displayed in the **Serial Number**, **Account Number**, **Account Name** and **Amount** fields.
7. (optional) Enter a Memo if necessary.
8. Click **Save**.

Note: Cancelling a stop payment may require additional approval by your company approver.

Check and Stops Inquiry

The Checks and Stops Inquiry function allows you to retrieve information about paid checks or stop payments to help confirm the item status.

To perform an inquiry:

1. Select **Checks and Stops Inquiry** from the Accounts menu.
2. The system displays the **Check and Stops Inquiry** screen.
3. Select the inquiry type from the drop-down menu: **Paid Check Inquiry, Stop Payment Inquiry**.
4. Select an account number to search.
5. In the **Serial Number** search field, you can inquire about a single item or a range of items.
6. (optional) You can also click the calendar icon to search for the **Paid Check Date** or **Stop Creation Date** based on your inquiry type.
7. When you have entered the necessary filter criteria, click **Search**.

The results of your inquiry appear at the bottom of the screen. The list contains checks that match your filter criteria.

Note: Once established, your filter remains for the rest of your session on Business Suite or until you re-sort results using different filter settings.

Wire Activity

The Wire Activity function provides you with detailed information about incoming wires.

To view wire activity:

1. Select **Wire Activity** from the Accounts menu.
2. The system displays the **Wire Activity** screen.
3. To view details for any of the listed transactions, use the bottom navigation bar to scroll to the right.

Exporting and Printing Wire Activity

To export or print wire activity:

1. Select **Wire Activity** from the Accounts menu.
2. The system displays the **Wire Activity** screen.
3. If you want to gather wire activity for a specific account(s), check the box that corresponds to the account(s) you wish to view.
4. Click the **Export** or **Print** link.
5. Mark the **All** or **Selected** radio button for the accounts for which you wish to get wire activity.
6. Click **Export** if you are exporting the results, or click **Print** if you are printing the results.

Deposit Images

The **Deposit Images** feature allows you to search for a deposit ticket and associated deposit images, if applicable.

To search for deposit images:

1. Select **Deposit Images** from the Accounts menu.
- The Deposit Images screen appears.

Deposit Images

Display 50 per page < Page 1 of 1 >

- At **Image Type**, select **Deposit Tickets and Items**.
- Select an account you wish to search.
- At **Date**, select the calendar icon, and then select the date(s) to search: Last 7 Days, Last 14 Days, Last 30 Days, Last 90 Days, Month to Date, Quarter to Date, Year to Date, Today. You can also select **Single Date** or **Custom Range**. Use the pop-up calendar or calendars to select the single date or range of dates, then click **Apply**.
- Click **Search**. Search results will be displayed at the bottom of the screen.
- In the **Actions** column, click **View Image and Items** to view the deposit details.

Note: If there is more than one image associated with a deposit ticket or other item, a list of images appears. Click **View** in the **Actions** column to view the associated image.

Use the controls at the bottom of the window to:

- Invert the color (white changes to black and vice versa).
- Flip the image to view front/back.
- Rotate the image view 90 degrees to the left.
- Zoom in and out on the image.
- Save the image.

- Print the image.

Note: For deposit ticket images, you may see a list of items associated with the deposit ticket. Click **View** to view details of an item.

Standard Reports

Transaction and Summaries in Transaction List View

After linking to an account from the Account Summary, a summary display will appear showing balances with the option "Show details". Clicking this option expands to show additional balances and a summary of transaction totals by transaction type. As shown in the screen shot below, these include:

- Summary Balances: Ledger, Available, Total Credits and Total Debits
- Today's Balances: Ledger, Available, Current, Net Activity Today, Related Available, Total Accessible
- Transaction Type Categories: ACH, Money Transfer, Miscellaneous, Lockbox, Other Deposits, etc.
- Summary Totals: All transactions for the history of your default list view. So if your default is "Last 30 days", summary is for last 30. If your list view default is "Last 7 Days", then Totals are for last 7.

Prior Day Combined Balance and Transaction

The Prior Day Combined Balance and Transaction report summarizes the prior day balances and transactions, plus any impact of float on your closing available balance. It also displays the average balance of your Ledger and Available balances.

Wire Activity – Current Day – Since Last Reported

The Wire Activity – Current Day – Since Last Reported report offers the same wire reporting details as the Wire Activity Summary and Per Item Detail Report. However, it is a current day report and will only display wires received since the user last viewed the report. This feature is ideal for high volume wire processing clients to pull an intraday report for only the wires that have not yet been viewed or managed on the current date.

ACH Company Report

The ACH Company Report shows ACH activity for each account that had ACH transactions occur on the prior business day. A summary amount is provided for each payment type affecting your account on the prior business day.

- Beneficiary Information - Person and Bank

Appendix A: Balance Definitions

Ledger Balance - The total balance in your deposit account after the close of the previous business day and therefore as of the start of the current business day.

Includes: Any Float or holds that are present on your account and therefore may include uncollected funds. Does not include: Any Related Account Balance

Current Balance - The Ledger Balance in your deposit account plus or minus any memo-posted (or "pending") transaction activity on your deposit account during the current business day. An example of memo-posted transactions may be incoming and outgoing wires or ACH credits and debits on the current business day

Includes: Any Float or holds that are present on your account and therefore may include uncollected funds

Does not include: Any applicable Related Account Balance

Total Accessible Balance - Your Ledger Balance plus or minus any memo-posted (or "pending") transaction activity on your deposit account during the current business day, minus any holds that may exist on your account, plus your Related Account Balance. This balance represents the total amount of funds that are available for immediate withdrawal

Includes: Related Account Balance and any Float that is present in your account and therefore may include uncollected funds

Related Account Balance - The balance within your Investment Sweep, Overdraft Line of Credit, Overdraft Sweep, Credit Sweep or Zero Balance Parent account that is tied to your deposit account, if applicable

Does not include: Balances from more than one type of relatable account, i.e., each deposit account can only be related to one other account

Net Activity Today - The net sum of any memo-posted (or "pending") transaction activity in your deposit account during the current business day

Closing Available (Collected) Balance - Your Ledger Balance minus any Float and/or holds that were present in your account as-of the close of the previous business day

Includes: The amount of collected funds that were in your account as of the

close of the previous business day

Does not include: Any Related Account Balance

Next Day Opening Available Balance - Your Closing Available (Collected) Balance plus any One Day Float that was present in your account as-of the close of the previous business day. This balance represents the amount of collected funds that are available for immediate withdrawal as of the start of the current business day. If you want to withdraw funds from your account without utilizing any uncollected funds (which may incur additional service charges), refer to your Next Day Opening Available Balance. (Keep in mind any memo-posted transactions that may have occurred on the current business day.)

Does not include: Any Related Account Balance

Float - The portion of your balance that is in an uncollected status (Refer to your Deposit Account Agreement for additional information and disclosures regarding F
